### Exhibit B

### **PURPOSE:**

Adequate reserved funds (net assets/cash) are a necessary component of the District's overall financial management plan and required to meet various externally imposed constraints.

Funds are reserved to meet specific future financial obligations and to mitigate natural, economic, political and regulatory risks. This policy is intended to document the business practices of the District and accurately reflect the nature, purpose and management of restricted and designated net assets and accurately reflect the financial condition of the District to its constituents, creditors, financial institutions, regulatory agencies, State and Federal agencies and the general public.

### POLICY:

### Restricted Net Assets/Cash

In accordance with GASB Statement 34 and FASB Statement 71, net assets are restricted when constraints placed on their use are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments. They are also restricted if their use is constrained by law through constitutional provisions or enabling legislation. Restricted Net Assets/Cash, the source of Restriction, the purpose of the Restriction, the method of determining the amount of Restriction and the treatment of interest is shown on Table I.

### Designated Nets Assets/Cash

In accordance with GASB Statement 34, designations of net assets represent management's intended use of resources and should reflect plans approved by the government's senior management. Designations reflect a government's self-imposed limitations on the use of otherwise available current financial resources. Designated Net Assets/Cash, the purpose of the Designation, the method of determining the amount of the Designation and the treatment of interest is shown on Table 2.
