Exhibit B

PURPOSE:

Adequate reserved funds (net assets/cash) are a necessary component of the District's overall financial management plan and are required to meet various externally imposed constraints.

Funds are reserved to meet specific future financial obligations and to mitigate natural, economic, political and regulatory risks. This policy is intended to document the business practices of the District and accurately reflect the nature, purpose and management of restricted and designated net assets and accurately reflect the financial condition of the District to its constituents, creditors, financial institutions, regulatory agencies, State and Federal agencies and the general public.

POLICY:

Restricted Net Assets/Cash

In accordance with GASB Statement 34 and FASB Statement 71, net assets are restricted when constraints placed on their use are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments. They are also restricted if their use is constrained by law through constitutional provisions or enabling legislation. Restricted Net Assets/Cash, the source of Restriction, the purpose of the Restriction, the method of determining the amount of Restriction and the treatment of interest is shown on Table I.

Designated Nets Assets/Cash

In accordance with GASB Statement 34, designations of net assets represent management's intended use of resources and should reflect plans approved by the government's senior management. Designations reflect a government's self-imposed limitations on the use of otherwise available current financial resources. Designated Net Assets/Cash, the purpose of the Designation, the method of determining the amount of Designation and the treatment of interest is shown on Table 2.

Exhibit B

PROCEDURE:

- Restrictions are to be reviewed by the Finance Committee annually including but not limited to a review of statutory and regulatory changes impacting or creating Restriction of District Net Assets/Cash together with any new or pending constraints resulting from business relationships with creditors, grantors or contributors.
- For any new or amended contract or other business relationship or action that creates or changes a restriction of Net Assets/Cash, the nature and amount of that restriction or change in restriction shall be specifically and fully detailed in the documents supporting action by the Board and only the Board shall have the authority to take or approve any action which has the effect of creating or changing such restriction(s) of Net Assets/Cash.
- Designations are to be reviewed by the Finance Committee annually and any changes approved by the Board on or before June 30 each year.
- Adding a designation category requires specific approval of the Board. This action will include: 1) the purpose of the designation, 2) the dollar amount of the designation, 3) the method for calculating any annual adjustment(s), if the dollar amount is to change each year, and 4) whether or not the interest accrued on the designated amount is to be added to the designation at the end of each fiscal year.
- Removing a designation category requires specific approval of the Board.
- Changing the method for calculating the annual adjustment(s) of the designation requires approval of the Board.
- The actual dollar amounts of the designation shall be calculated based on the defined method and adjusted at year-end for financial reporting purposes.
- Designated net assets will be segregated into separate financial accounts.
- An identical amount of cash will be designated for annual financial reporting purposes in order to reflect management's intention to fund the commitment of designated net assets. Designated cash will not be segregated from undesignated cash either in bank/investment accounts or in financial accounts except when that cash is separately invested in a manner specifically approved by the Board.
